Biglietto pop-up: le figure e come si fa

Scegli una figura per il gradino: le altre puoi incollarle fuori, sulla copertina.

Età dai 6 anni **Tempo** 30 minuti **Materiali** cartoncino leggero, forbici, colla stick, pastelli o pennarelli

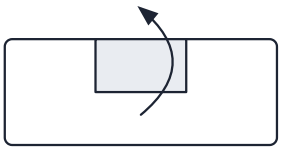

1. Piega il foglio con il titolo a metà, con i disegni dentro.

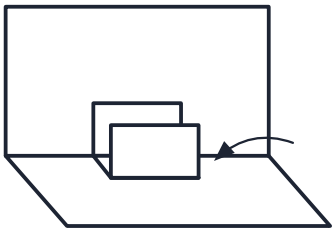

2. Tieni il foglio piegato e taglia le due linee corte che partono dalla piega.

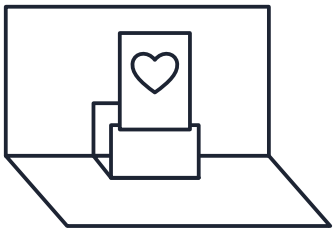

3. Piega avanti e indietro la linguetta tra i due tagli.

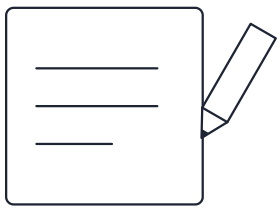

4. Riapri il biglietto e spingi dentro la linguetta: si forma un gradino.

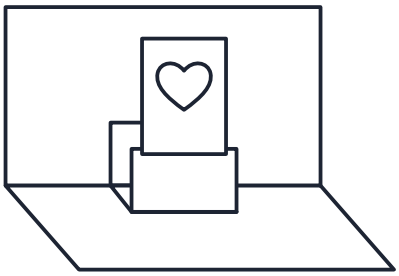

5. Colora e ritaglia una figura, piega la sua linguetta e incollala sul gradino.

6. Scrivi il tuo messaggio, chiudi il biglietto e decora la copertina.

Il biglietto finito

Quando si apre, la figura salta fuori dal gradino.
Più il cartoncino è rigido, più il gradino sta dritto.
