Fiore di carta: i pezzi

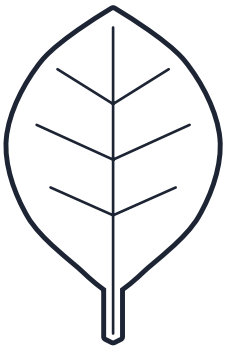

Stampa su cartoncino leggero. Colora ogni pezzo di un colore diverso: più colori, più il fiore sarà allegro.

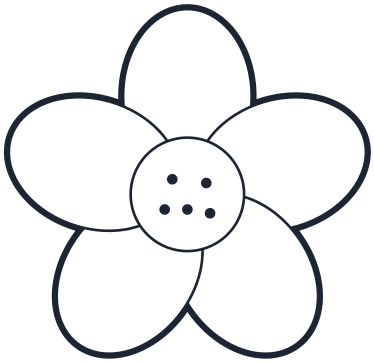

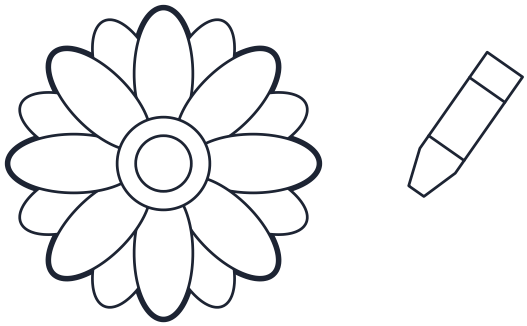

Fiore di carta: come si fa

Il trucco per un fiore che sembra vero: incurva i petali con la matita prima di incollarli.

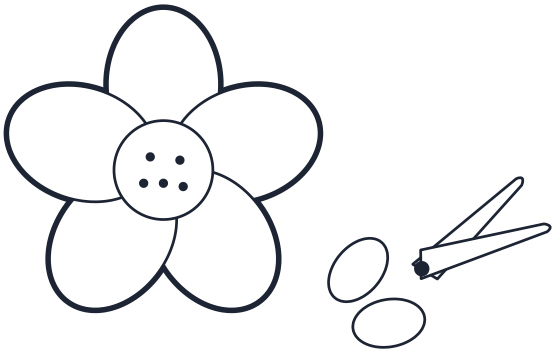

Età dai 4 anni **Tempo** 25 minuti

Materiali cartoncino leggero, forbici, colla stick, pastelli o tempere, una matita

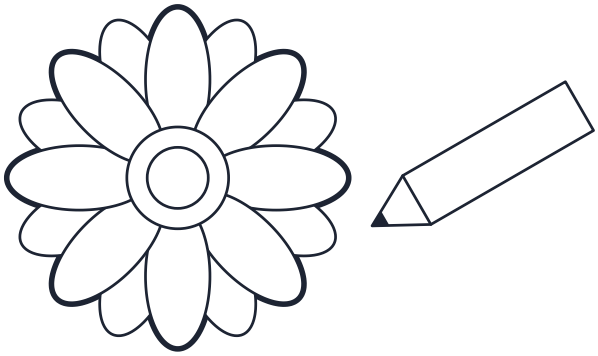

1 Colora i pezzi: il fiore grande, quello piccolo, il centro, le foglie e il gambo.

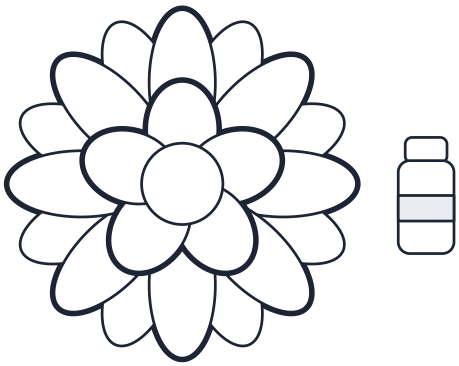

2 Ritaglia tutti i pezzi lungo la linea spessa.

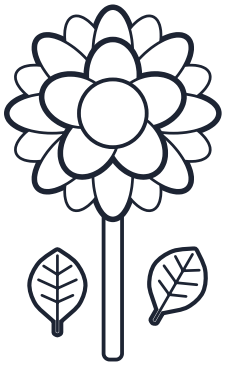

3 Arrotola ogni petalo intorno a una matita: si incurva in su.

4 Incolla il fiore piccolo sul grande e il centro sopra.

5 Incolla il fiore in cima al gambo e le foglie ai lati.

Il lavoretto finito

Fai un mazzo di fiori di tanti colori e mettilo in un vasetto.
