Calcola perimetro e area

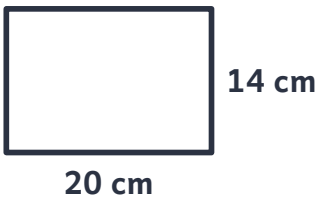

MATEMATICA | 4ª E 5ª

NOME _____

DATA _____

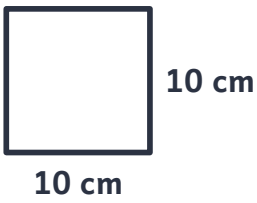

Rettangolo: P = (b + h) × 2, A = b × h. Quadrato: P = l × 4, A = l × l. Triangolo: A = b × h : 2. Le figure non sono in scala.

Rettangolo

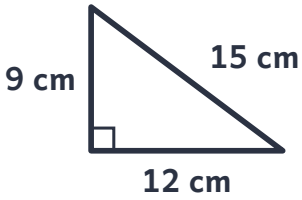

P = _____ cm

Quadrato

P = _____ cm

Triangolo rettangolo

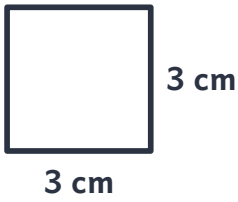

P = _____ cm

Rettangolo

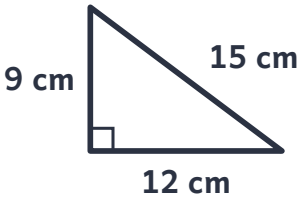

P = _____ cm

Quadrato

P = _____ cm

Triangolo rettangolo

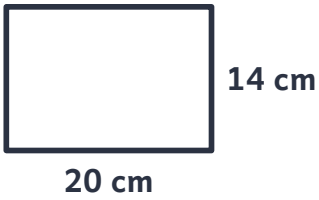

P = _____ cm

Calcola perimetro e area

SOLUZIONI

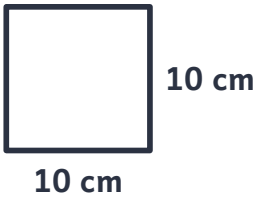

Rettangolo

P = (20 + 14) × 2 = 68 cm

P = 68 cm

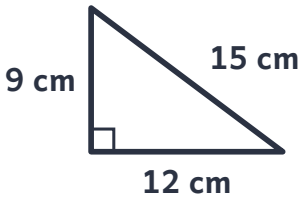

Quadrato

P = 10 × 4 = 40 cm

P = 40 cm

Triangolo rettangolo

P = 9 + 12 + 15 = 36 cm

P = 36 cm

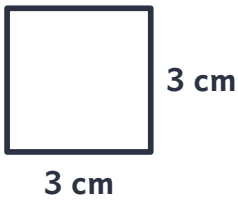

Rettangolo

P = (23 + 11) × 2 = 68 cm

P = 68 cm

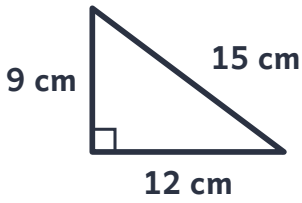

Quadrato

P = 3 × 4 = 12 cm

P = 12 cm

Triangolo rettangolo

P = 9 + 12 + 15 = 36 cm

P = 36 cm
